New RF Analyzer At CDM Quality Testing Lab

Turnersville, NJ, September 18, 2023... CDM Electronics, a full-line authorized distributor of quality interconnects and manufacturer of engineered cable assemblies, has added a Rohde & Schwarz Model ZNL20 Vector Network Analyzer to their quality testing lab's equipment range. CDM Manufactures and tests a wide range of RF cable assemblies including flexible, conformable, low-PIM and semi-rigid configurations.

"This is a great opportunity to enhance our RF testing capabilities to better support our customers' needs" said Al Tulini, CDM Director of Quality. "CDM's aim of continued quality testing enhancements allows us to address the newest and most stringent testing requirements", Tulini continued, and noted that CDM continues to have the industry's premier RF cable assembly program.

CDM Electronics has become a valued partner to defense contractors, telecommunications and transit equipment manufacturers through their extensive onsite RF testing capabilities. The Rohde & Schwarz Model ZNL20 is CDM's primary Vector Network Analyzer and delivers a 5kHz to 20GHz test frequency range, two ports for bidirectional measurements and up to > 120 dB dynamic range and <0.0045dB trace noise. The ZNL20 has measurement speed times of 16.7ms, and 14 channels with 10,001 points. CDM is certified to IPC-WHMA-620 and J-STD-001 standards, ensuring their customers the highest possible quality for soldered connections in RF cable assemblies.

About CDM

For almost 30 years, CDM Electronics has delivered interconnect product and engineered cable assembly solutions to the world's leading aerospace, military, telecom, automotive, industrial, commercial, and alternative energy providers. Renowned for its unsurpassed levels of customer service and support, the company supplies Original Equipment Manufacturers (OEMs) with full lines of standard and specialty connectors including circular, Mil-Spec,

DIN, power, PROFIBUS, rectangular, and RF devices. CDM employs documented and controlled systems in its value-added division, which specializes in mission critical cable assembly, including RF cable assembly, military cable assembly, power cable assembly, and box builds. The company's ISO and AS9100 Certified headquarters is in Turnersville, NJ. CDM maintains a regional office in Richardson, TX.
